*** INSTRUCTIONS FOR CONTAINMENT REQUIREMENTS

All aboveground storage tanks installed on or before October 18, 2002, must install proper containment in accordance with EAA rules by October 18, 2017.

Any aboveground storage tanks installed after October 18, 2002, must have proper containment installed in accordance with EAA rules at the time the tank is placed into service.

All underground storage tanks installed on or before October 18, 2002, must install proper containment in accordance with EAA rules within 30 years after the date of installation of the tank.

Any underground storage tanks installed after October 18, 2002, must have proper containment installed at the time the tank is placed into service.

Any tank for which a major modification is performed, must install proper containment as part of the modification.

Major Modification guidelines can be found in §713.627 and §713.629 of the EAA rules.

Proper containment guidelines can be found in §713.633 of the EAA rules.
