- 2.02 Terms of Office
- 2.03 Officers; Election of Officers; Terms of Office
- 2.04 Board Vacancies - Elected Voting Directors
- 2.05 Board Vacancies - Appointed, Non-voting Directors

2.01 Board of Directors

(a) The Board of Directors is the governing body of the Authority and is responsible for all affairs of the Authority. The Board's rights, powers, duties, and responsibilities are provided in the Act, and, to the extent applicable, chapter 36 of the Texas Water Code. The Board's powers include, but are not limited to, adopting and enforcing reasonable rules, and orders to manage and protect the Edwards Aquifer.

2.02 Terms of Office

(a) The Board is composed of 17 directors, including 15 voting directors elected from single-member election districts described in Section 1.093 of the Act, and 2 nonvoting appointed directors.

(b) One nonvoting director shall be appointed by the Advisory Committee from the members of the Committee. The other nonvoting director shall be appointed by the commissioners court of Medina County or Uvalde County. The nonvoting director appointed must be a resident of the appointing county. The commissioners court of Medina County shall appoint a nonvoting director for the four-year term beginning December 1, 1996.

(c) The initial nonvoting directors' terms begin December 1, 1996 and expire December 1, 2000. Subsequent regular appointments of nonvoting directors shall be made on or before the date of the directors' election held for even-numbered districts. Subsequent nonvoting appointed directors' terms expire December 1 following the appointment of the directors' successors. A nonvoting director shall serve until a successor is duly appointed and qualified.

(d) Commencing in 1998, the Board shall order elections of the appropriate number of directors to replace directors holding elected offices whose terms are nearest expiration, to be held on the uniform election date in November of each even-numbered year. Such elections shall be conducted as provided in the Act, the Election Code, and in Article 7 of these Bylaws.

(e) The term of a newly elected or appointed director shall commence on December 1 following the election and upon the director taking the oath of office and meeting all other qualifications.

2.03 Officers; Election of Officers; Terms of Office

At the January regular meeting of the Board following an election of new directors, the following officers shall be elected by the Board: Chairman, Vice Chairman, Secretary, and Treasurer. Officers serve two-year terms commencing on the date of the Board meeting at which the election occurred and continue until their successors have been elected.

2.04 Board Vacancies - Elected Voting Directors

(a) Except for appointed directors, the filling of vacancies is within the jurisdiction of the Board. If an elected director's position becomes vacant, the Board shall appoint a qualified person to serve until the first election of directors following the appointment. If the position is not scheduled to be filled in that election, the Board shall additionally provide for a director to be elected at that election for the remainder of the unexpired term. The Authority may not commence the filling of a Board vacancy under Subsection (d) until the director has filed: (1) a letter of resignation; or (2) a notice of his or her intent to resign. If a Board member files a notice of intent to resign, he or she must still file a letter of resignation for the Board to be able to declare the position vacant.

(b) It is the policy of the Board that the selection of new directors to fill vacant positions be fair, open and respect the voters of the area to be represented.

(c) A vacancy on the Board occurs upon the date of:

(1) Death of a Board member;

(2) Acceptance by the Board of a signed, written notice of resignation to the Board filed with the Chairman, or by operation of law at 5:00 p.m. of the eighth day after receipt of a written notice of resignation, whichever is earlier, as provided by Section 201.023, Texas Election Code;

(3) Disqualification of the director by operation of law; or

(4) Removal of a director by the Board, as may be provided by law.

(d) Pursuant to section 49.105(a), Texas Water Code, vacancies on the Board shall be filled by appointment of the Board not later than the 60th day after the date the vacancy occurred.

(e) In the event the Board is unable to fill the vacancy by the 60th day, the Board shall take action as soon as practicable thereafter to fill the vacancy in recognition of other vacancy filling provisions provided by section 49.105, Texas Water Code.

(f) The Board will fill vacancies for voting directors in accordance with the following procedure:

(1) For a vacancy under section 2.04(c)(2), the Board shall accept a duly filed

written notice of resignation from a director at its next regularly scheduled meeting and declare a director vacancy by majority vote of the quorum. For all other resignations, the declaration of vacancy shall be made by the Board at the meeting at which the general manager presents facts to the Board reasonably supporting a declaration of vacancy.

(2) After either a letter of resignation, or notice of intent to resign, has been filed, the general manager must give notice of the vacant (or potentially vacant) position, and that the Authority is accepting applications from qualified persons to fill the vacancy. The notice of vacancy (or potential vacancy) shall be published one (1) time in at least one newspaper circulated in the single member district for which the Board has received a letter of resignation, or notice of intent to resign. The notice shall contain the following information:

(A) the number of the vacant (or potentially vacant) single member district;

(B) the minimum qualifications to serve as a member of the Board;

(C) the manner in which an interested member of the public may apply to fill the vacancy (or potential vacancy);

(D) the identification of, and manner of obtaining, any forms that may be required to properly apply for the vacant (or potentially vacant) director position;

(E) the deadline for filing an application to fill the vacant (or potentially vacant) direction position;

(F) the address of the Authority;

(G) the name and telephone number of the Authority contact person for further information; and

(H) any other information that in the judgment of the general manager may be useful to the Board in filling the vacancy.

(3) All applications to fill a vacant director position shall be received and date stamped by the Authority no later than 5:00 p.m. on the 30th day after the last date of publication of the notice in a newspaper. For any applications that are not timely filed, the general manager shall report to the Board the fact that an untimely filed application was filed. The Board may not consider any untimely applications in its vacancy deliberations. The Board shall review the timely applications received and determine how many qualified candidates to interview.

(4) If the resigning Board member so chooses, that member may recommend an applicant to be interviewed by the Board. The recommendation and application of the recommended person must be received no later than the application filing deadline set out in subsection (f)(3).

(5) The Board shall interview the selected applicants and then vote on a replacement director as it may choose. After review by the Board, the Board may vote not to accept any of the applications and direct the general manager to reopen the application process and publish another notice of vacancy according to the procedures set out in this subsection.

(6) The person receiving a majority vote of the quorum of the Board will be declared the new director.

(g) After the Board has made a selection, the new director shall, as soon as practicable, fully perform all acts required by law to be duly qualified to be seated as a member of the Board. Once these actions have been completed, the new director shall be entitled to participate in and perform all duties of office.

(h) A director may withdraw a written notice of resignation prior to final action by the Board in accepting the resignation, or prior to 5:00 p.m. of the eighth day after the date of receipt by the Authority, whichever is earlier. A director may withdraw a written notice of intent to resign prior to the filing of a letter of resignation.

2.05 Board Vacancies - Appointed, Non-voting Directors

(a) For appointed directors, the filling of vacancies is within the jurisdiction of the appropriate appointing body. If an appointed non-voting director's position becomes vacant, the appropriate appointing body shall appoint a qualified person to serve for the unexpired portion of the term.

(b) The Board will fill vacancies for appointed non-voting directors in accordance with the following procedure:

(1) For a vacancy under section 2.04(c)(2), the Board shall accept a duly filed written notice of resignation from a director at its next regularly scheduled meeting and declare a director vacancy by majority vote of the quorum. For all other resignations, the declaration of vacancy shall be made by the Board at the meeting at which the general manager presents facts to the Board reasonably supporting a declaration of vacancy.

(2) After a declaration of vacancy by the Board, the general manager will correspond with the appropriate appointing body and request a new appointment to fill the unexpired portion of the term. This request will be renewed each 30 days until a new director is appointed and has fully performed all acts required by law to be duly qualified to be seated as a member of the Board.

The “General Manager” is equivalent to the “executive director” referenced in the Act.

(b) Except as provided by Sections 4.07 and 8.08 all contractors and employees of the Authority, shall be selected and hired by the General Manager and shall conduct their work under the General Manager’s supervision and direction. The General Manager may hire on behalf of the Authority all such employees and consultants for which allocation has been made in the annual budget. The General Manager may execute on behalf of the Authority, without further authorization by the Board, any contract for a project involving the expenditure of an amount no greater than fifty thousand dollars (\$50,000) for which general allocation for such type of contract has been made in the annual budget. This limit also applies to multiple contracts for the same project. Unless the expenditure is necessary in order to perform a procedural requirement mandated by law for the Authority to implement one of its activities, the General Manager may not execute on behalf of the Authority, without further authorization by the Board, multiple contracts totaling more than one hundred thousand dollars (\$100,000) with the same party for different projects in one calendar year. The General Manager shall execute other contracts, obligations, undertakings, conveyances and other instruments when so authorized and directed by the Board.

(c) The General Manager may designate the Deputy General Manager to act on his or her behalf to manage the Authority’s activities. This designation includes but is not limited to signature authority for such things as contracts and purchase orders.

4.02 Term of the General Manager

The General Manager shall serve at the pleasure of the Board. The employment status of the General Manager shall not be altered in any respect, and no cause shall be required for termination of the General Manager, except as expressly provided to the contrary by written order or resolution of the Board.

The Assistant to the Treasurer may perform the ministerial functions of the office of the Treasurer in the case of the absence or disability of the Treasurer to act.

4.05 Non-Interference in Personnel Matters by Directors

Neither the Board nor any member thereof shall interfere with the General Manager's authority over personnel matters, and in particular shall not instruct the General Manager to appoint to or remove from employment any person, except with respect to those positions which may be filled by the Board. Neither the Board nor any member thereof may give instructions to any employee or contractor of the Authority, either publicly or privately, inconsistent with these Bylaws and other policies and procedures of the Authority.

4.06 Appointment of Acting General Manager

If the General Manager becomes incapacitated or is otherwise unable or unavailable to perform his or her duties, or in other extraordinary circumstances, the Board may appoint an Acting General Manager to perform the duties of General Manager on an interim basis. The Deputy General Manager designated by the General Manager will act as Interim General Manager in the interim between the time the General Manager becomes unable to perform his or her duties and the Board takes action to name an Acting General Manager.

4.07 Legal Consultant Services

General counsel services for the Board will be approved by the Board. The General

Manager may retain special counsel for contested cases. The Board shall hire all legal consultants. The Board shall authorize the General Manager to develop procedures for reviewing, evaluating, selecting, and managing agreements for such services. All agreements shall be conducted in accordance with the following guidelines:

(a) “Legal consultants” – shall include the Authority’s counsel of record and all other individual attorneys or law firms engaged by the Authority.

(b) Whenever the Board decides to engage the services of one or more legal consultants, the Finance/Administrative Committee, except in cases where special expertise or experience is required, shall solicit for statements of interest and qualifications for such services. The General Manager shall then review and rank in order of preference in accordance with established evaluation criteria any proposals received by the Authority, interview the respondents, and make a recommendation to the Finance/Administrative Committee.

(c) After presentation to the Finance/Administrative Committee, the Committee may vote to adopt the General Manager’s recommendation and present the recommendation to the Board, or conduct a second evaluation process. If the secondary evaluation process is selected, the committee may then meet to review the responses, conduct interviews, evaluate all information received to date and prepare a final recommendation to the Board. The final selection will be submitted to the full Board during an open meeting for consideration.

(d) The General Manager shall be responsible for managing and administering the selection process as set out by the Finance/Administrative Committee. The General Manager will participate in all discussions regarding the selection process but will not have an official vote on the committee.

(e) In accordance with Article 10.06 of the Bylaws, it is the policy of the Board not to engage the services of any attorney or firm, which may have a direct or indirect conflict of interest with the Authority. Legal consultants will further provide to the Authority an affidavit executed by a managing partner stating that no conflicts exist and that they will not accept new clients with conflicts of interest.

(f) The selected individual/firm shall serve at the pleasure of the Board and shall agree to conduct all activities in accordance with the guidelines established in this policy.

(g) The Board shall direct the General Manager to manage all aspects of the Authority’s agreement(s) with legal consultant firms. The General Manager shall oversee all daily activities of all legal consultants, except in those cases specifically identified by the Board.

(h) Directors may contact the legal consultants directly, for informational purposes. However, in such an event the director and the legal consultant shall contact the General Manager and Chairman of the Board to inform them of the communication. However, the Chairman may contact legal consultants as the need arises. This contact may occur at the request of another Board member. These communications do not have to be forwarded through, or discussed with, the General Manager.

(i) Legal consultants shall perform only work which has been expressly authorized by the General Manager, or the General Manager's designee, as directed by the Board. However, for legal services requested by a director, legal consultants shall perform only work expressly authorized by the Executive Committee. The request shall be made to the General Manager, who shall then place the item on the agenda of the next available Executive Committee meeting for consideration and action. Executive Committee approval is not required for director requests to the General Manager for staff activities or inquiries that are not legal in nature but, in the judgment of the General Manager, reasonably require the assistance of a legal consultant in responding to the director request. Invoiced amounts for any work not previously authorized by those individuals named above will be questioned and a thorough review of the item(s) will be conducted.

(j) With regard to matters discussed in closed session, materials distributed to directors labeled "Privileged and Confidential Communication between Attorney and Client" will be collected at the end of the closed session to preserve the confidential nature of the material and to protect the interests of the Authority.

(k) All invoices for legal consultant services shall include the following information:

- (1) The attorney's name or initials who is billing,
- (2) Date of billing activity,
- (3) Amount of time billed,
- (4) Description of activity which includes topic and who requested/authorized attorney's activities.

(l) Detailed invoices are to be submitted to the Finance/Administrative Committee under separate cover in advance of the Finance/Administrative Committee meetings for review and discussion with the General Manager. The Finance/Administrative Committee's action and recommendation will be submitted to the Board in advance of the Board meeting. Detailed invoices will not be submitted to the entire Board.

(m) The monthly invoice presented for payment will be the final billing and is subject to negotiation. The invoice is to be submitted to the Authority by the tenth day of the month and will be paid in full within 30 days unless questioned by the Finance/Administrative Committee and the Authority.

(n) The Board may also, with a majority vote, discontinue an agreement with one or more legal consultants. The Board shall conduct all such activity through the General Manager.

(o) The General Manager shall evaluate the performance of the legal consultants. This process shall be carried out upon authorization of the Finance/Administrative Committee and Board. If utilized, both the Board and the General Manager shall contribute information to

complete the evaluation. The General Manager shall forward a report to the Board after the evaluation process is completed.

Failure to adhere to this policy statement may result in immediate termination of the Authority's association with any individual or firm providing legal services to the Authority including any work in progress at the time notice is given by the Authority.

4.08 Guidelines for Selecting and Managing Legislative Consultants

The Board will set the compensation and terms for legislative consultants. The scope of legislative consulting services and the compensation to be paid will be specified by written contract. The general manager will oversee the performance of legislative consultant activities. The general manager will develop procedures for reviewing, evaluating, selecting, and managing agreements for such services. All agreements will be conducted in accordance with the following guidelines:

(a) "Legislative consultants" – include the Authority's designated representative(s) authorized to present the Authority's position on all legislative matters.

(b) Whenever the Board decides to engage the services of one or more legislative consultants, the general manager, except in cases where special expertise or experience is required, will solicit statements of interest and qualifications for such services. The general manager will then review and rank in order of preference in accordance with established evaluation criteria any proposals received by the Authority, interview the respondents, and make a recommendation to the Executive Committee.

(c) After presentation to the committee, the committee may vote to adopt the general manager's recommendation and present the recommendation to the Board or conduct a second evaluation process. If the secondary evaluation process is selected, the committee may then meet to review the responses, conduct interviews, evaluate all information received to date and prepare a final recommendation to the Board. The final selection will be submitted for consideration by the full Board.

(d) In accordance with Article 10.06 of the Bylaws, it is the policy of the Board not to engage the services of any individual or firm that may have a direct or indirect conflict of interest with the Edwards Aquifer Authority. Legislative consultants will further provide to the Authority an affidavit stating that no conflicts exist and that they will not accept new clients that would create a conflict of interest.

(e) The selected individual/firm serves at the pleasure of the Board and must agree to conduct all activities in accordance with these guidelines.

The general manager will then review and rank in order of preference in accordance with established evaluation criteria any proposals received by the Authority, interview the respondents, and make a recommendation to the Finance/Administrative Committee.

(c) After presentation to the committee, the committee may vote to adopt the general manager’s recommendation and present the recommendation to the Board or conduct a second evaluation process. If the secondary evaluation process is selected, the committee may then meet to review the responses, conduct interviews, evaluate all information received to date and prepare a final recommendation to the Board. The final selection will be submitted for consideration by the full Board.

(k) The Finance/Administrative Committee may evaluate the performance of the auditor consultants annually. Both the Board and the general manager may contribute

information to complete the evaluation. The Finance/Administrative Committee may forward a report to the Board after the evaluation process is completed.

9.01 Introduction and Scope

The Edwards Aquifer Authority (the “Authority”) has developed this Investment Policy (the “Policy”) to satisfy the statutory requirements of Sections 36.156, 36.1561, 49.157, and 49.199, Texas Water Code and the Texas Public Funds Investment Act, Chapter 2256, Texas Government Code and the Public Funds Collateral Act, Chapter 2257, Texas Government Code requiring local governments to define and adopt a formal written investment policy and written investment strategies for each fund under its control. This Policy applies to all financial assets of the following funds:

- ◆ General Fund
- ◆ Abandoned Well Closure Assistance Fund
- ◆ Conservation/Aquifer Protection Fund
- ◆ Habitat Conservation Plan Program Fund
- ◆ Other funds established from time to time

Except for cash in certain restricted and special funds, the Authority may consolidate cash and investment balances to ease cash management operations and maximize investment earnings. Investment income will be allocated to the various funds based on their respective participation and in accordance with generally accepted accounting principles.

(a) It is the policy of the Edwards Aquifer Authority’s Board that all available funds are to be invested to the maximum extent possible with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs at the time of the investment in conformance with the legal and administrative guidelines outlined herein for each of the Authority’s funds.

(b) The Board shall review its Investment Policy and investment strategies not less than annually. In conjunction with its annual financial audit, the Authority shall also perform a compliance audit of management controls on investments and adherence to this Policy. If the Authority invests in other than money market mutual funds, investment pools or accounts offered by its depository banks in the form of certificates of deposit, or money market accounts or similar accounts, the reports prepared by the Investment Officers shall also be formally reviewed, and the result of the review shall be reported to the Board by the auditor.

(c) A written copy of this Policy shall be presented to any person offering to engage in an investment transaction with the Authority or to an investment management firm under contract with the Authority to invest or manage the Authority's investment portfolio.

(d) A qualified representative, as defined by Section 2256.002(10), Texas Government Code, and a representative of an investment management firm under contract with the Authority shall execute a Certification by Business Organization form confirming the business organization has:

(1) received and reviewed the Authority's Investment Policy; and

(2) acknowledged that the business organization has implemented reasonable procedures and controls in an effort to preclude investment transactions conducted between the Authority and the organization that are not authorized by the Authority's Investment Policy, except to the extent that this authorization is dependent on an analysis of the makeup of the entire portfolio or requires an interpretation of subjective investment standards.

9.02 Objectives

The Authority recognizes that an effective Investment Policy is an essential element of sound fiscal management. To achieve this goal, the Authority states that its primary investment objectives, in the order of priority, are the preservation and safety of the principal, liquidity, investment diversification, reasonable yield, appropriate maturity dates, and the enhanced quality and capability of investment management.

(a) The Authority's Board and staff shall strive to ensure the preservation of principal in each investment transaction, achieve and maintain liquidity by matching investment maturities with forecasted cash flow requirements, and optimize return on the Authority's investment portfolio through sound investment management.

(b) In addition to achieving the stated objectives, all participants in the Authority's investment process shall act responsibly as custodians of the public trust. Investment Officers shall avoid any transaction that might impair public confidence in the Authority's ability to govern effectively.

9.03 Investment Strategy

For all investments, the Authority will stagger maturity dates in accordance with cash flow expectations and analysis to meet liquidity and operation requirements. To determine portfolio performance, this Policy establishes the “weighted average yield to maturity” as the standard performance measurement.

(a) General Fund:

The General Fund comprises the basic operating functions of the Authority and accounts for all financial resources for which a separate fund has not been established. Investment revenue from this fund shall supplement existing revenues. On General Fund investments, the Authority will limit the investment to short term (two years or less). Intermediate term (more than two years) investments are not appropriate to the Authority’s objectives because of their inability to supplement current year operations. Within the General Fund, the Authority administers a General Fund Contingency Fund, which is not set up as an actual separate bank account but is simply delineated as a fund for budget purposes only.

(b) Abandoned Well Closure Assistance Fund:

The Abandoned Well Closure Assistance Fund was established to provide financial assistance to low-income well owners to help resolve abandoned well closure matters. Abandoned Well Closure Assistance Fund investment revenue shall provide financial assistance to future well owners in need of assistance. Therefore, the Authority will limit all investment to short term (two years or less).

(c) Conservation/Aquifer Protection Fund:

The purpose of the Conservation/Aquifer Protection Fund shall be to hold funds, and the earnings there from, to be expended by the Authority for various projects related to the conservation and protection of the Aquifer. These funds come from payments by violators of the Authority’s rules. Conservation/Aquifer Protection Fund investment revenue shall provide for the funding of future and/or on-going projects and programs related to this fund. Therefore, the Authority will limit all investment to short term (two years or less).

(d) Habitat Conservation Plan Program Fund:

The purpose of the Habitat Conservation Plan Program Fund shall be to hold funds, and the earnings there from, to be expended by the Authority for various projects detailed in the “Implementing Agreement” between the Authority, various parties and the United States Fish and Wildlife Service. The primary source of revenue to implement the Habitat Conservation Plan is an annually determined Program Aquifer Management Fee assessed against municipal and industrial permit holders and contributions from various parties subject to a “Joint Funding Agreement” for the implementation of the Habitat Conservation Plan. The Authority’s objectives under the Habitat Conservation Plan Program involve accumulation of funds in excess of annual operational needs to cover costs during irregular periods for certain programs over the life of the Habitat Conservation Plan. Therefore, the Authority will limit all investment to short and intermediate term (five years or less).

9.04 Investment Officers

(a) The Authority’s Board designates the Executive Director - Administration and Financial Services and the Controller as the Investment Officers. The Board delegates to the Investment Officers of the Authority, the authority and responsibility to manage the Authority’s investment program subject to all applicable laws, the Authority’s written Investment Policy, including all amendments, and directions, policies and resolutions from time to time adopted by the Board.

(1) It is understood that implicit in this grant of authority is authorization for the Executive Director for Administration and Financial Services to make further delegations of duties as are appropriate and necessary to satisfy the Authority’s investment responsibilities.

(2) All investments shall be made with judgment and care under circumstances then prevailing that persons of prudence, discretion, and intelligence would exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived.

(3) The Authority’s Board retains ultimate responsibility as a fiduciary of the Authority’s assets. Each Investment Officer, and his/her designees, acting in accordance with this Policy and written strategies, and exercising due diligence shall be relieved of personal responsibility and liability in the management of the portfolio, provided that deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse market effects.

(4) Each Investment Officer, if he/she has a personal business relationship with an entity seeking to sell an investment to the Authority, shall file a statement disclosing that personal business relationship with the Texas Ethics Commission and the Board of the Authority. A personal business relationship will exist if:

(A) the Investment Officer owns 10 percent or more of the voting stock or shares of the business organization or owns \$5,000 or more of the fair market value of the business organization;

(B) funds received by the Investment Officer from the business organization exceed 10 percent of the Investment Officer's gross income for the previous year; or

(C) the Investment Officer has acquired from the business organization during the previous year investments with a book value of \$2,500 or more for the personal account of the Investment Officer.

(5) Each Investment Officer, if he/she is related to an individual seeking to sell an investment to the Authority within the second degree of affinity or consanguinity as determined under chapter 573 of the Texas Government Code, shall file a statement disclosing the relationship with the Texas Ethics Commission and the Board of the Authority.

9.05 Authorized Investments

The Authority may invest in the following investments as authorized by the Public Funds Investment Act, Texas Government Code Chapter 2256.

(a) Obligations, including letters of credit, of the United States or its agencies and instrumentalities,

(b) Direct obligations of the State of Texas or its agencies and instrumentalities,

Quotes for certificates of deposit may be solicited orally, in writing, electronically, or in any combination of those methods.

(f) Fully collateralized repurchase agreement(s) if the repurchase agreement:

(1) has a defined termination date;

(2) is secured by cash or obligations described by Section 2256.009(a)(1) of the Texas Government Code;

(3) requires the cash or securities being purchased by the entity to be pledged to the entity, held in the entity's name, and deposited at the time the investment is made with the entity or with a third party selected and approved by the entity; and

(4) is placed through a primary governmental securities dealer, as defined by the Federal Reserve, or a financial institution doing business in Texas.

(g) No-load money market mutual fund(s) if the mutual fund:

(1) is registered with and regulated by the Securities and Exchange Commission;

The Authority recognizes that investment risks can result from issuer defaults, market price changes or various technical complications leading to temporary illiquidity. Risk is controlled through portfolio diversification that shall be achieved by the following general guidelines:

(a) Credit Risk – The Authority will minimize credit risk, the risk of loss due to the failure of the security issuer or backer, by:

- (1) Limiting investments to the safest types of securities,
- (2) Pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisors with whom the Authority will do business, and
- (3) Diversifying the investment portfolio so that potential losses on individual investments will be minimized.

(b) Interest Rate Risk – The Authority will minimize the risk that the market value of securities in the portfolio will fall due to changes in general interest rates by:

A clearly marked evidence of pledge (collateral receipt) must be supplied to the Authority and retained. ARTICLE XV EDWARDS AQUIFER RECHARGE ZONE AND CONTRIBUTING ZONE LAND ACQUISITION

Section

- 15.01 Introduction
- 15.02 Objectives
- 15.03 Prioritizing Properties for Acquisition
- 15.04 Guidelines for Land Acquisition

15.01 Introduction

The Edwards Aquifer Recharge Zone and Contributing Zone (EARZ/CZ) Land Acquisition Policy is intended to provide guidance to the Authority when considering acquiring tracts of land in these areas. For the purposes of this policy, land acquisition is intended to include fee-simple purchase, conservation easements and land leasing.

Section 1.08(a) of the Edwards Aquifer Authority Act authorizes the Authority “...to manage, conserve, preserve and protect the aquifer and to increase the recharge of, and prevent the waste or pollution of water in the aquifer.” Section 1.11(d)(7) states that the Authority may “own real and personal property;” and section 1.28(b) allows the Authority to “...issue revenue bonds to finance the purchase of land.” Sections 1.11(g) states that the Authority has the right of eminent domain. In addition, Sections 1.01, 1.11(d)(9), 1.14(a)(6) & (7), and (h), and 1.26A of the Act mandates the protection of threatened or endangered species and their habitats. These sections of the Act provide the basis for the Authority to acquire land as may be necessary and appropriate to perform the statutory missions of the Authority..

EARZ/CZ land acquisition by the Authority will be performed at the direction of the Board. An EARZ/CZ land acquisition line item may be placed in the Authority’s annual budget and may be considered for funding during each budget cycle. If funded, Authority staff will provide the Board with potential acquisition opportunities that fall within the budgeted amount and meet the Authority’s acquisition criteria.

15.02 Objectives

The objectives of the policy are to:

- (a) Preserve and conserve land over the recharge zone and contributing zone of the Edwards Aquifer;
- (b) Protect recharge water quality;
- (c) Maintain or increase recharge water quantity; and
- (d) Protect threatened or endangered species and their habitat. This objective will be

limited to threatened and endangered species habitat protection that is integrally linked to a water resource management strategy of the Authority.

Properties being considered for acquisition must meet at least three of these objectives.

15.03 Prioritizing Properties for Acquisition

The Board may direct Authority staff to develop specific quantitative criteria to prioritize properties for acquisition. Otherwise, qualitative ratings, based on professional judgment, will be provided by staff. Criteria for designating properties as a higher priority for acquisition may include the following:

- (a) Properties on the recharge zone;
- (b) Properties containing sensitive features that could allow enhanced or direct recharge to the aquifer;
- (c) Properties that are likely to be developed in the near future;
- (d) Properties with threatened or endangered species habitat; and
- (e) Properties with favorable funding opportunities.

15.04 Guidelines for Land Acquisition

The Authority will not enter into any purchase obligations without prior Board approval. Staff will utilize the guidelines discussed in Sections (a) through (d) below while pursuing an acquisition opportunity.

- (a) Locating Acquisition Opportunities.

Authority staff will work with other natural resource protection agencies to assess what areas are most represented by the priorities listed in Section III. Staff may also work with the real-estate acquisition agents of other natural resource protection agencies and with private real-estate services to identify specific parcels of land that may be available for purchase. The Authority may use its power of eminent domain as a last resort.

- (b) Acquisition Proposals.

Proposals for land acquisition will be initially reviewed with the Board prior to expending a significant amount of staff time investigating details of the opportunity. If favorably received by the Board, it may instruct the General Manager to further evaluate the opportunity. If the Board approves the General Manager's evaluation, the Board may instruct the General Manager to proceed with initiating a real estate transaction.

- (c) Acquisition Priority Ratings.

Properties being considered for acquisition will be rated pursuant to the following criteria:

(1) Property Location Relative to the Recharge Zone and Contributing Zone. Properties being considered for acquisition will be located on either the recharge zone or contributing zone (RZ or CZ). In general, properties located on the RZ will receive a higher priority rating than properties on the CZ. Acquiring property over the RZ is of higher benefit because those properties have the potential for allowing direct inflow into the aquifer. Properties located over the CZ may also be considered to protect the quality and quantity of potential recharge water from sites upstream of the RZ.

(2) Sensitive Features and Surface Streams. Properties containing sensitive features, such as sinkholes, sinking or losing streams, caves, faults, fractures, and vugular porosity, will receive a higher priority rating than properties without sensitive features. Properties with significant surface drainages over the RZ will also receive higher priority ratings.

(3) Areas pending development. Properties that are located in areas that are pending development will receive a higher priority rating. A consideration of development potential must be balanced with the higher cost of properties located in close proximity to population centers. Recharge sites that significantly contribute water to the artesian zone or to public drinking wells will receive a higher priority rating.

(4) Habitat Conservation. Properties containing habitat for threatened or endangered species, or which significantly contribute water to or otherwise protects endangered species will receive a higher priority rating. In general, properties will be evaluated for threatened or endangered species habitat based on published information. Site specific habitat studies are not anticipated.

(5) Funding opportunities. Funding opportunities that provide the highest degree of RZ or CZ protection for the lowest monetary contribution from the Authority will be given a higher priority rating.

(d) Property Management.

The Authority prefers a cooperative partner manage any acquired properties. If a cooperative funding partner is not an entity that possesses land management capabilities, the Authority may enter into a cooperative agreement with an entity that will manage the property.
