900 E. Quincy, San Antonio, Texas 78215  
(210) 222-2204 or 1-800-292-1047 Fax (210) 222-9869

## **Agricultural Secondary Containment Assistance Program Enrollment Form**

The Agricultural Secondary Containment Assistance Program (AgSCAP) is intended to provide financial assistance to registered agricultural facility owner/operators with obtaining secondary containment for regulated aboveground storage tanks (AST) in accordance with Edwards Aquifer Authority (EAA) rules. A copy of the EAA's rules can be obtained from the EAA's website at <http://www.edwardsaquifer.org/aquifer-protection-and-programs/storage-tanks>.

### **I. - Owner Acknowledgement:**

By filing this enrollment form with the EAA, the applicant acknowledges the following (please initial):

- The applicant agrees to allow the EAA and/or its consultants to enter the applicant's property upon reasonable time and reasonable notice to perform a site analysis and any necessary integrity testing of associated AST system(s).
- The applicant agrees to provide the EAA and/or its consultants information concerning the volume of regulated substances used for each AST at the facility. (e.g. AST fill records, estimated usage, etc.)
- Enrollment into the AgSCAP does not guarantee financial assistance. Allocation of funds is based on available funding and the level of tank owner participation in the program.

### **II. - Certification:**

I certify that, as the enrollee to the AgSCAP, I am the Owner or Operator of the tank(s) which are currently registered with the EAA, or their Authorized Agent.

Signature of Owner, Operator, or Agent: \_\_\_\_\_ Date \_\_\_/\_\_\_/\_\_\_

Print Name: \_\_\_\_\_

Co-Signature (if applicable): \_\_\_\_\_ Date \_\_\_/\_\_\_/\_\_\_
