Digital Raster Graphic Enhanced (DRGE) produced through an innovative partnership agreement between
The Land Information Technology Company, Ltd., of Aurora, CO and the USGS.
DRGE is a scanned image of a USGS standard series 7.5 minute topographic map:

Mapped, edited and published by the Geological Survey.
Control by USGS and NCS/NCAA
Topography by photogrammetric methods from aerial
photographs taken and field checked between 1950 and 1990.
Polyconic projection. 1927 North American datum
10,000-foot grid based on Texas coordinate system,
south central zone (Lambert conformal conic)
1000-meter Universal Transverse Mercator grid ticks, zone 14.
